

Dear Infinity Homes Customers,

Our Sales Centers are open for business! At Infinity Homes, your health and safety is important to us. With that thought, we want you to know a few things. As always, our sales centers thoroughly cleaned and disinfected weekly. In light of the recent events and the COVID-19 concerns, we will be focusing on disinfecting those “touch” areas, light switches, restrooms, faucets, lamps, etc and we will have a clearly outlined plan to frequent hand washing along with having hand sanitizer in each model home.

We can even schedule a one on one appointment outside of sales center hours if that makes you feel more comfortable in visiting our sales center. You can also view our models and available homes via our website <https://infinitybuilthomes.com/communities/>. If you are ready to make an Infinity home your next home, we have an e-signature program available so you can easily and conveniently finish your paperwork from the comfort of your own space. As always, feel free to reach out to our team with any questions.

Sincerely,

The Infinity Homes Team
